### **State NIBRS Certification**

Missouri is now officially NIBRS Certified by the national UCR Program. The Grain Valley Police Department worked closely with the MoUCR Program Office to develop a test data set that would meet all FBI data quality requirements. Grain Valley PD should be commended for their very hard work and effort assisting the state in achieving this long awaited goal.

### **Acceptance of NIBRS Data From Missouri Agencies**

Now that Missouri has NIBRS Certification, we can begin to prepare for acceptance of Missouri Incident Based Reporting System (MIBRS) data. Once the systems necessary for collection of data from local agencies are completed, and the state rules and regulations concerning Missouri Agency MIBRS Certification are drafted, we will be prepared to begin accepting test data from Missouri law enforcement agencies. Agencies currently using a system designed to capture NIBRS data should watch future UCR Bulletins for announcements regarding when we will be ready to accept test data. Agencies should be aware that they will be required to undergo a certification process before their IBR data will be accepted in place of summary reporting.

### **UCR Quality Assurance Reviews**

Since the 05-01 UCR Bulletin, the following agencies received letters of commendation from the Director of the Missouri State Highway Patrol's Criminal Records & Identification Division for outstanding performance and findings following their Missouri UCR Quality Assurance Review:

Lawrence County Sheriff's Department  
Cape Girardeau County Sheriff's Department

The Missouri Division of Alcohol & Tobacco Control  
Lamar Police Department  
Jonesburg Police Department  
Bernie Police Department  
Calverton Park Police Department

The Following agencies received a compliance rating in the 90 to 99 % range following their 2004 Missouri UCR Quality Assurance Review. While these agencies did not receive the Director's letter, they deserve special recognition for a job well done:

It is important to note that one third of all independently reporting law enforcement agencies are reviewed each year. An annual report of QAR results will be available later this year. As documentation is continually being processed, there may be additional agencies that receive letters of commendation following the publication of this Bulletin. Those agencies will be identified in the September 2005 UCR Bulletin.

### **ASUCRP Annual Conference**

The Association of State Uniform Crime Reporting Programs will be holding its annual conference this year in Little Rock, Arkansas from September 18-21, at the Peabody Hotel. The fee for the conference is \$225. Reservations at the Peabody Hotel must be made directly with the Peabody Hotel at (501) 906-4000 no later than August 1, 2005 to take advantage of the discounted room rates for the conference attendees. County and municipal agencies are encouraged to send representatives in order to learn more about Uniform Crime Reporting and the National Incident Based Reporting System. If you have any questions, please contact ASUCRP President Gwen Ervin-McLarty at gmclarty@acis.state.ar.us.

### **Hate Crime Reporting to State**

Please ensure that all hate crime reports (including quarterly reports) are mailed to the MoUCR Program Office rather than directly to the FBI CJIS section. While the state program has no mechanism for the actual collection of the hate crime statistics, we do track which agencies are reporting. The Program Office will forward any reports received to the FBI CJIS section once they are logged in at the state level.

### **2005 Deadlines**

The state deadline for submission of 2005 January through June data is August 12, 2005. The August 12th deadline will allow the state program office time to review and compile data and forward it to the FBI by the August 26th deadline. Agencies currently behind in reporting or having discrepant or rejected reports on file should expect to be contacted.
